His Ogden Property Proven Up at Depth.

VEINS ARE PERMANENT

TRAMWAY FROM THE MINE NEARLY COMPLETED.

Word comes from Ogden that Don Maguire's El Dorado property, located east of the Hot Springs, a few miles Foreign Consumers New America's north of the Junction City, is coming Chief Customers rapidly to the front and will soon be among the producers. In the face of a 200-foot tunnel, which was driven to their copper circular, say: England among the producers. In the face of a

The maragement of the Silver Shield | Dorted do tons fine. at Bingham, is feeling in high feather over the splendid improvement which

over the splendid improvement which is occurring in the ore bodies on the lower level of the mine. Not only is the quality of a most gratifying kind, but the quantity is also opening out to an extent that Superintendent Sessions in his last letter to the Salt Lake office, took occasion to say that the mine never looked so well and that the September output would be a fine one.

The two carloads sent in Saturday was marketed yesterday on controls showing 37.75 per cent lead. 39 ounces silver, \$2.50 in gold and 3.3 per cent copper, together with an excess of iron which brought over \$1 per ton premium. The shipment amounted to fifty-seven tons and after all charges were paid the company slipped into its treasury a check for \$1.040.

With that sum, said Mr. A. Hanauer, jr., yesterday, the Silver Shield company goes out of debt and still retains a nice balance on hand. It is fully expected that not less than six cars of the same kind of rock will be marketed during the month, in addition to a nice batch of concentrates, an't the prospects of a dividend being dec ared next month are considered extremely good.

# THE MIDLAND'S STRIKE.

It Is Proving up Well and the Future Looks Bright.

portant strike was recorded last week, is reported to be gradually and satisfactorily improving by Manager Roi Bemis and Mr. Virtue, who were both at the mine a day or two ago. The tunnel has been advanced only a few feet into the ore chute since the strike was made, but when the gentlemen left there was full six feet of it in the face. The Midland is one mine in Bingham that can operate at a minimum cost, and if the ore first encountered proves up as well as everything now indicates and in the control of the market yesterday.

Colonel Heffron went out to size up matters at the Bingham Copper & Gold company's bonanza yesterday.

Will J. Lawrence has returned from Big Cottonwood, where he has been looking after matters at the New Sensation. and if the ore first encountered proves up as well as everything now indicates that it will do, a very short time will make it a bread-winner of no small proportions. The property runs down into the main canyon of Bingham, and the mouth of the tunnel is so located that the mine cars can be run out and dum ed directly into the railroad cars if so desired. Where the strike was made is 1,000 feet from the mouth and fully 800 feet beneath the outcrop

camp like a book, and installed him as superintendent of the mine yesterday. The plan is to begin drifting southwest in the contact on the lower tunnel level, and from the knowledge gained in the upper works it is not expected that a great while will elapse till something good is developed.

thing good is developed.

In the same party was C. N. Strevel, vice president and treasurer of the Scott-Strevel Hardware company, and Mr. R. G. Legg, the latter having gone out to inspect the Liberal property at Mr. Strevel's solicitation, he being one of the chief owners. While there the party all went through the Butler, which adjoins the Liberal and Montezuma, in Markham gulch, and it is understood they were all agreeably understood they were all agreeab surprised at the Butler's appearance. e all agreeably

### OGDEN MAN'S DISCOVERY.

Has Located a Big Copper Ledge in Colorado.

(Special Correspondence.) Ogden, Sept. 10.-S. H. Hobson has some fine specimens of copper ore taken plicable. from a fourteen-foot vein recently located by him near Golconda, Colo. A.

## NOW DOWN TO WORK.

The Lower Mammoth's Machinery All in Running Order.

The preliminary tests all concluded, the Lower Mammoth company yesterday started its new fifty-horse power electric motor on its regular run, and advices from the mine were to the effect that everything was working smoothly, not a hitch of any kind hav-

The mine is now one of the best equipped in Tintic, and it will not be long till regular ore shipments will begin. The wait for power has been a tedious and exasperating one, but now that everything is in application. that everything is in apple-pie order with the world.

### SPY AND CARISSA.

Latter to Be Shortly Operated 25 cents. Through the Former.

Northern Spy to the Carissa, and as soon as this connection of the two mines is finished the work of developing the Carissa will be carried on through the Spy. This will mean a considerable saving to the Colorado parties who own the two properties.

When the Spy was sold by Jesse Knight, C. E. Loose and associates for \$50,000, it was understood that the new owners would soon begin drifting from the Spy ground to intercept the Carissa ore channel, and the workings of the Spy are admirably adapted to the development of that large section of mineral ground which the purchasers have now acquired.

eral ground which the parents of the Spy has reached a depth of 650 feet, and the new company is of the opinion that it has a large area of the best mineral ground in the Tintic district.

### BUSINESS IN COPPER

Chief Customers.

(Boston News Bureau.)

260-foot tunnel, which was driven to establish the permanency of the vein. Mr. Maguire is said to have not less than four feet of ore which carries 40 per cent lead, several ounces silver and from a trace to \$5 in gold.

The tramway being constructed down the mountain side is said to be nearly completed and the opinion is expressed that the El Dorado will prove to be all and more than Mr. Maguire ever anticipated it would be.

The surface workings of the property are described as being filled with mineral and now that the question as to whether the veins went down has been definitely determined, it is claimed that nothing can prevent opening of a veritable bonanza by its owner. The whole mining fraternity of this state will rejoice at Don Maguire's good luck.

SILVER SHIELD ORE. tons more than for the first half of last year. European demand is a factor of the greatest importance, and the foreign consumer is now the principal consumer for the product of the American copper mines. During the past four years and seven months ending July 31, 1990, this country has produced 1.064.077 tons of fine copper, and exported during the same period 621,636 tons fine.

McCornick & Co., Mingo bullion, \$3,-200; silver and lead ores, \$7,900; cyanides, \$1,900.

T. R. Jones & Co., ores, \$11,700; bullion, \$30,800.

Metal Market. Silver, 62½c per ounce. Copper, 15%c per pound. Lead. A. S. & R. Co.'s price, \$4.00; New York exchange, \$4.37½; New York brokers', \$4.00.

(Special Correspondence.)

Mammoth. Aug. 10.—Robertson and Williams, who are working the Carissa under lease. sent out one carload of gold-copper ore Saturday, and they are at present loading for another shipment, which is expected on the market in a few days. This ore, which is being extracted from a drift from the 100-foot incline shaft, carries gold and copper values to the amount of about \$55 per ton. The leasers will shortly begin work on a drift from the shaft, with the end in view of getting under an ore body which was practically worked out some time ago.

Since the Spy mine changed hands arrangements have been made to run a drift from the workings of the old

Does It Pay to Buy Cheap.

A cheap remedy for coughs and colds is all right, but you want something its all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shail you do?

Go to a warmer and more regular climate? Yes, if possible; if not possible; if no

Business Opened in Fairly Good

Scenes of Excitement Puring

Sensational Rulge

The list of miscreants on the police court docket vesterday reached the score mark. A goodly portion of the number were plain Sunday drunks, and were given the choice between \$5-or five dars on the Canyon road. Form Yesterday. Sensational Bulge.

TOTAL SALES, \$8,308.75 STORM THE BIG CAUSE

DALY AND VALEO ARE BOTH CHAOS RULES ON BOTH SIDES OF STEADILY ADVANCING.

The week's business on 'change opened yesterday in fairly good form, the total transactions amounting to on the cotton exchange today was with-\$8,308.75, with 17,300 shares changing out parallel. Fluctuations far exceedhands. Daly opened at \$2.20 bid, \$2.40 ed anything hitherto recorded, the exasked, but afterwards eased off and tremes being 100 points, with relapses closed at \$2.18 and \$2.35, no sales befrequent and violent. The market

ing made Daly-West started the ball rolling prices 43@61 points higher on an irreand four lots of fifty shares each sold at prices ranging from the \$18.33½ to every branch of the trade took part. \$18.35, the closing quotations being \$18.30½ and \$18.37½. The books closed on the September dividend yesterday, the distribution to occur Saturday next.

Lower Mammoth sold 100 at 48¼c., a slight decline from Saturday's quotations

Mammoth exhibited strength and 1,000 shares were sold at prices ranging from \$2.17 to \$2.18%.
May Day was also stronger, 2,000 shares going at from 45c to 46c.
Northern Light did business to the extent of 5,500 shares, which sold from 43c to 4%c.
Sacramento held its own and sold up

shares going at from 45c to 46c.

Northern Light did business to the extent of 5,500 shares, which sold from 4%c to 4%c.

Sacramento held its own and sold up to 28c while Star Consolidated was in good demand at fractionally higher figures. It sold 600 shares at 50c to 51c. Joe Bowers remained practically stationary, selling at 1½c and 1½c.

Yankee Consolidated proved stronger and 4,000 shares changed hands at 18c to 18%c.

Valeo is steadily on the climb though no sales are being made. Yesterday's

Sensational setbacks followed nervetrying bulges, which kept operators of no matter what belief jumping to keep pace. The English market showed corresponding gyrations, and private cables denoted complete chaos in Liverpool. The bulls, however, were being carried along by the advance. On the local exchange September sold up to \$10.50, as against \$3.50 Saturday night.

The best level of the late months was

Ore and Bullion.

Ore and bullion settlements in this city yesterday amounted to \$55,500, as follows:

McCornick & Co., Mingo bullion, \$3,-200: silver and lead ores, \$7,900; cya-

CORBETT'S GENEROSITY. Draws a Check for a Stranger Who Was Ill.

(Omaha News.)
"They can say all they want about
Jim Corbett," said Veteran Dan O'Leary,
"but Jim is a man with a big heart, and "but Jim is a man with a big heart, and he has more principle than the public gives him credit for. About a year ago Jim was in town, and we were eating dinner at Kinsley's. I told him about a young man who was ill at St. Elizabeth's hospital. He was a young fellow who had experienced hard luck, and his illness was serious. The story appealed to Jim as though the patient had been some relative. He had never seen the man I merely told him the story because the young man was a good friend of mine. After I finished I saw Jim reach in his pocket and pull out a book. He said nothing for several minutes and then began to write. Leaning over to me as he handed out a slip of paper, he said: 'Do you suppose this would do him any good?' I took the paper and found it a check for \$100. I had the pleasure of presenting it to my friend with Corbett's compliments and there certainly is one man in America who will never go back on the exchampion."

# IN THE POLICE COURT.

Mrs. Anna Robinson was charged with petit larceny. Mrs. Benjamin Haddock, wife of the constable, found the defendant wearing a sealskin collarette which she identified as being one stolen from her nearly a year ago. The prosecution was not ready, and asked that the case be continued until today. The request was granted

opened irregular and excited, with

and without exception parties having heavy profits within reach. Many of those immediately took the bull side again and were still long at the close sawed a. a breath-taking rate, with the movement in the main generally

Caused by the Storm.

The foundation of buil ideas and the cause of the terrific bull speculation was the news that the best section of the crop had been swept by a tropical storm, the equal of which was not known. Reports from central Texas were vague and totally unsatisfactory, which fact tended to increase the fears of shorts and the big crop theorists in general. Liverpool was similarly influenced, as well as the New Orleans market. market.
Estimates pointing to a loss of 750,000 to 1,000,000 bales and the announcement that spot cotton was in enormous demand south at ½@½c higher prices intensified the convictions of the bears. Crop Report Little Noticed.

The government report for September, usually the most important of the season, cut comparatively little figure as an influence. The general condition was given at 68.2, as against 76 last month, 68.5 in September last year, 79.8 in 1898 and 78.3 in 1897. This average included 77 for Texas as contrasted with 83 on Aug. 10 and 81 on Sept. 10 of last year. At 12.45 p. m. the failures of T. G. Schiffer and Gay I. Schiffer were announced, these bankers being caught short by the opening rise. The announcement of their suspension did not serjously disturb the market, as they were known to have unimportant obligations outstanding.

The bull fever reached its height about noon and under a flurry of profit taking near the close prices settled back a few points. The close was irregular and excited, with prices net 40@80 points higher.

Estimates placed the total transactions at 1,250,000 bales, or 150,000 more than ever before recorded. said she thought that was as good a place in so long as she earned her living. The judge told her that he would discharge her this time, but if she ever was caught at such places again she would be punished. The girl promised to look for work elsewhere.

M. F. McCullough and John Welsh were charged with bathing in a public place. These two men and five boys were arrested for bathing in an open spring near the railroad tracks in the northwestern part of town. The boys were lectured and discharged soon after arrested. The two men pleaded guilty and were informed that it would be \$3 or three days each.

## PROPERTY IS DIVIDED.

goes a Change.

The Continental market corner, on West Temple and First South streets, was divided yesterday between Mrs. Maye Jennings Farlow and Mrs. Alice Hooper Palmer. This property was held in joint ownership by these two ladies since it came into their possession some years ago, but for business reasons it was found desirable to make a division. Thomas W. Jennings acted for Mrs. Farlow in the matter, and Joseph J. Caine acted for Mrs. Palmer.

The property divided has a frontage. was divided yesterday between Mrs. and if the ore first encountered proves by as well as everything now indicates that it will do, a very short time will proportions. The property runs down into the main canyon of Bingham, and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the mouth of the tunnel is so located that the mine cars can be run out and the run will be run will be ru

Brownlee, Bingham; E. S. Brownlee, Iowa; F. F. Gray, Nebraska.

The Big Price on Coyotes' Heads. (New York Journal.) Akron, Colo.-Eastern Colorado ranch

Akron. Colo.—Eastern Colorado ranchmen value an ordinary coyote at \$37.50. This extravagant price will result in another gerat hunt this fall, in which it is estimated thousands of the little animals will fall victims to the 44 of the cowboy or the hounds of the sports of the east. The famous plains country in eastern Colorado, which was once the breeding ground ind home of the buffalo, is now populated by thousands of coyotes, and so destructive have they become to the stock interests of the section in question that the state of Colorado and the cattle barons, working together, are offering \$7.50 for every coyote scalp presented. This liberal offer will result in attracting hundreds of hunters from Nebraska, Kansas, Wyoming and western Colorado, and even now the section infested finds many hunters who are making what they call "big money." and his brother, Gus Lawson, will race on roller skates at Saltair Thursday evening. They also give an exhibition of bicycle riding. 25 cents pays for everything, and it is for the benefit of the Young Ladies' Ald society. Go out and take a friend. (St. Louis Globe-Democrat.)

"Briggs is dreadfully nearsighted. You know that hat his wife wears with all those black plumes in it?"

"Yes: I've seen it."

"Well. Briggs thought it was the head of a feather duster, and he tied it to his came and had brushed a lot of spider webs from the porch ceiling before his wife caught him at it."

### HIS LAST RACE.

A Fortune Lost to a Horse-Owner by a Refusal to Pay \$10.

chair and puffing away vigorously at a very black cigar, "why, I remember told him to see Jim, which he did.

a ticket on the prospective winner. My friend's horse was quoted at 20 to and the six jockeys had tickets which called for \$200 to \$10. Somehow or "Talk about killings," said the old turfman, settling himself back in his triend's horse about it. The member were plain Sunday drunks, and free diverse of Shore diverse in the Choles between Shore and the Choles between Shore and the Choles of Shore and Shor
